

BioTeke Corporation

BioTeke was founded in 2005 by returned overseas researchers in Beijing China.

The R&D department consisting of a large group of innovative young scientists,

focusing on molecular biology reagents & kits. BioTeke is one of the leading manufacturer and supplier in China and has been gradually exported to many countries worldwide. Its products has been cited in more than 10,000 articles, part of them in the high impact journals of Nature and Genetics. It innovates and develops a breakthrough blood RNA extraction reagents, which outperform other international competitors and emerge as exclusive RNA extraction reagent for Capital Bio Corporation. Bioteke's automated nucleic acid extraction system has made nucleic acid extraction of samples such as tissues and blood truly automated by eliminating the requirement for pretreatment, directly adding samples into the well-plate with reagents, without sacrificing the yield and purity

Our Products and services:

- **DNA, RNA, Plasmid & Proteins** extraction, preparation & clean-up/purification from general and tough samples
- **PCR, RT-PCR, cDNA Synthesis, Real-Time PCR, Electrophoresis, Cloning** related products
- Associated **instruments, biochemical, buffers, enzymes** and etc.

Promotion!

- *Cells/Tissues DNA Extraction Kit
- *Bacteria DNA Extraction
- *Fungi DNA Extraction Kit
- *Plant DNA Extraction Kit
- *Whole Blood DNA Extraction Kit
- Now only RM650 for 100 preps!!!For 20 Preps packing, it is only RM180**

***Soil DNA Rapid Extraction Kit, 50 preps, RM1000**

*Soil DNA Rapid Extraction Kit, 10 preps, RM250

***Stool DNA Rapid Extraction Kit, 50 preps, RM1000**

*Stool DNA Rapid Extraction Kit, 10 preps, RM250

***Water DNA Rapid Extraction Kit, 50 preps, RM1100**

*Water DNA Rapid Extraction Kit, 10 preps, RM280

***2xPower Taq PCR MasterMix, 3ml (for 240 reactions, 25ul total reaction volume), **RM160**

*2xPower Taq PCR MasterMix, 30ml (for 240 reactions, 25ul total reaction volume), **RM1550 (free another 5ml)

*2xPower Taq PCR MasterMix, 3ml (for 240 reactions, 25ul total reaction volume), **RM160

***2x Power Taq Polymerase of 500 Units premixed with Reaction Buffer (2mM Mg²⁺), and a separate vial of dNTPs Mix 10mM 500ul, **RM185**

***RNAfixer: Samples' RNA Stabilization Reagent, 100ml, RM400**

***Tripure Total RNA Extraction Reagent (TRIZOL Method)**

Now only RM400 for 100ml!!

***RNApure High-purity Total RNA Rapid Extraction Kit (Spin-column), 50 preps, RM600**

*RNApure High-purity Total RNA Rapid Extraction Kit (Spin-column), 10 preps, RM150

***100bp DNA Ladder Marker, 200 preps (550ng/5ul, 5ul/prep), RM500**

*100bp DNA Ladder Marker, 50 preps (550ng/5ul, 5ul/prep), RM180

***1kb DNA Ladder Marker, 200 preps (450ng/5ul, 5ul/prep), RM300**

*1kb DNA Ladder Marker, 50 preps (450ng/5ul, 5ul/prep), RM100

*Nucleic Acid Staining Dye - Gelview (Goldview), 1ml(for 500 preps of 20ml gel size, 2ul/gel), RM170

***Nucleic Acid Staining Dye - Gelview (Goldview), 5ml (for 2500 preps of 20ml gel size, 2ul/gel), RM520**

*6X DNA/RNA loading dye buffer, 10ml, RM170

*Agarose Gel Powder, 100g, RM300

***High-purity Plasmid DNA Mini-Preparation Kit, 100 preps**

*High-purity Plasmid DNA Mini-Preparation Kit, 50 preps

***Gel Extraction & PCR Purification Combo Kit, 100 preps**

*Gel Extraction & PCR Purification Combo Kit, 50 preps

*One-step Yeast Plasmid Mini-prep Kit, 50 preps

Now only RM380!!! 25 preps only at RM130

***Universal Plant Total RNA Extraction Kit (Spin-column), 50 preps, RM1000**

*Universal Plant Total RNA Extraction Kit (Spin-column), 15 preps, RM350

***Power RT Reverse Transcription Kit, 100 preps, RM750**

*Power RT Reverse Transcription Kit, 20 preps, RM180

***Power 2xSYBR Real-time PCR Premixture, 400 preps (for 25ul reaction volume), RM580**

*Power 2xSYBR Real-time PCR Premixture, 80 preps (for 25ul reaction volume), RM150

Aside from these highlighted kits/reagents, we have many variations of products offered, and as well common reagents/biochemicals such as proteinase K, lysozyme, DNase, Rnase, Rnase Inhibitor, DNase/Rnase-free water, DEPC-treated water, TE/TBE/TAE buffer, IPTG, X-gal, B-mercaptoethanol, ethanol, BSA, FBS, DMEM, penicillin-streptomycin and many others <http://www.bioteke.com/en/>

The above listed prices stated on Feb 2018 are valid until further notice and as long as the Ringgit to US Dollar TT rate in bank is not weaker than RM4.30 to USD 1. For latest & more confirmed pricing, please forward to us your inquiries

For more information you are welcome to forward to us your inquiries

"Making your research easier"
